AMENDMENT

Dear Sir:

This Amendment is in response to the Office Action dated February 27, 2003 and the Office Communication dated June 6, 2003. More particularly, this is a resubmission of the amendment filed May 27, 2003, wherein claim 9 was submitted accidentally with two marked-up versions. The following amendment has corrected that oversight. Reconsideration of the application is respectfully requested.

IN THE CLAIMS:

1. An undercabinet lighting assembly comprising:
- a housing;
 - a first plurality of Light Emitting Diodes (LEDs) mounted within the housing forming at least one array of LEDs, the LEDs generating an LED beam and serving as a light source;
 - a switch coupled to a variable resistor for controlling a level of optical output;
